Capturing Phylogenetic Algorithms for Linguistics

Workshop: 26 – 30 October 2015, Leiden, the Netherlands

Historical relationships between languages are analogous to trees and phylogenetic algorithms are used to search for trees from multifaceted linguistic data.

Painting: Tree of Life by Gustav Klimt (1909). Poster design: SuperNova Studios NL

The Lorentz Center is an international center in the sciences. Its aim is to organize workshops for scientists in an atmosphere that fosters collaborative work, discussions and interactions.

For registration see: www.lorentzcenter.nl

This workshop is a part of the NIAS-Lorentz Program to stimulate research bridging the natural sciences with the humanities and social sciences.
