Designing Diverse News Recommenders
From Concept to Implementation

21 - 25 November 2022, Leiden, the Netherlands

Topics

• What does it mean for a recommendation to be diverse?
• How do we translate this into something quantified that a computer can work with?
• How can (and should) we get readers to consume more diverse news?

Scientific Organizers

• Sanne Vrijenhoek, University of Amsterdam
• Natali Helberger, University of Amsterdam
• Abraham Bernstein, University of Zurich
• Daan Odijk, RTL Nederland B.V.
• Christina Boididou, BBC
