Online Workshop

The Politics of Climate Engineering

Actors, Arenas, Timescales

29 September - 1 October 2020, Leiden, the Netherlands

Scientific Organizers

- Ina Möller, Wageningen University
- Julia Schubert, Bonn University

Topics

- Actors
  Which actors are involved in, shape, and define the politics of climate engineering?

- Arenas
  What are the critical arenas and contexts in which the politics of climate engineering take shape?

- Timescales
  What timescales should we take into account when exploring the politics of climate engineering?

The Lorentz Center organizes international workshops for researchers in all scientific disciplines, aiming to create an atmosphere that fosters collaborative work, discussions, and interactions. For registration see: www.lorentzcenter.nl
