The Power of TROPOMI to Bridge African Science and Policy

11 - 15 April 2022, Leiden, the Netherlands

Scientific Organizers
- Abebe Shimeles, AERC
- Marleen Dekker, ASCL
- Rebecca Garland, U. Pretoria
- Deborah Stein Zweers, KNMI
- Pieternelevelt, UCAR

Topics
- Satellite Measurement of Air Quality (TROPOMI Instrument)
- Policy questions and data issues
- Understanding Emissions
- City-Scale Approach
- Public Health
- Agriculture

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions.

For registration see: www.lorentzcenter.nl

This workshop is part of our collaboration with NIAS and aims to stimulate research in the humanities & social sciences.

TROPOMI images show trace gases relevant to air quality measured in September 2021. Image credits KNMI, EEA. Compilation by Deborah Stein Zweers, KNMI. Poster design SuperNova Studios. NL
