

**Scientific Organizers**

- Béatrice Bonga, Radboud University
- Tanja Hinderer, Utrecht University
- Arianna Renzini, California Institute of Technology
- Lijing Shao, Peking University
- Nicola Tamanini, CNRS / L2IT

**Topics**

- Present and Future of Gravitational Wave Science
- Cross-Community Building (LIGO/Virgo, LISA, PTA)
- Professional and Soft Skill Development for Early Career Scientists
- Diversity, Equity, Inclusiveness and Mental Health

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions. For registration see: [www.lorentzcenter.nl](http://www.lorentzcenter.nl)

Gravitational waves are emitted as two black holes spiral toward each other. Image credit: LIGO/T. Pyle
