

# Artificial Intelligence for Natural Product Drug Discovery

27 September - 1 October 2021, Leiden, the Netherlands

## Scientific Organizers

- Anna Hirsch, Helmholtz Institute for Pharmaceutical Research
- Gerard van Westen, Leiden University
- Marnix Medema, Wageningen University
- Roger Linington, Simon Fraser University
- Serina Robinson, ETH Zürich

## Topics

- Genome and Metabolome Mining
- Developments in Artificial Intelligence
- Predicting Biological Activities of Natural Products
- Databases and Standardization
- Data Integration

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions. For registration see: [www.lorentzcenter.nl](http://www.lorentzcenter.nl)

Artificial intelligence will provide a new view on drug discovery from natural products. Image by Colin Anderson. Poster design: SuperNova Studios . NL
