

Photocatalysis

Challenges and Future Perspectives

27 - 31 March 2023, Leiden, the Netherlands

Scientific Organizers

- Sonja Pullen, University of Amsterdam
- Sebastian Beil, University of Groningen
- Line Næsborg, WWU Münster

Topics

- Artificial Photosynthesis
- Organic Photocatalysis
- Photophysical Processes
- Photo Biocatalysis

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions. For registration see: www.lorentzcenter.nl

This workshop is the winner of the Chemistry Competition, organized with KNCV, to stimulate cutting-edge chemistry research.

Photochemical reactions can be easily performed with readily available LEDs and can be run under batch or flow conditions.
