Agent Based Simulations for Societal Resilience in Crisis Situations

27 February - 3 March 2023, Leiden, the Netherlands

The Lorentz Center organizes international workshops for researchers in all scientific disciplines. Its aim is to create an atmosphere that fosters collaborative work, discussions and interactions. For registration see: www.lorentzcenter.nl

This workshop is part of our collaboration with NIAS and aims to stimulate research in the humanities & social sciences.

Topics

• Successes of Agent Based Social Simulations for Crises
• Theoretical Development of Agent-Based Models
• Development of a Platform or Suite of Tools
• Institutionalize the Effort of Creating these Social Simulations

Scientific Organizers

• Frank Dignum, Umeå University
• Amineh Ghorbani, TU Delft
• Fabian Lorig, Malmö University
• Nanda Wijermans, Stockholm University

We have to prepare for disasters. Not just be overcome by them.
