The Importance of Jet-Induced Feedback on Galaxy Scales

23 - 27 October 2023, Leiden, the Netherlands

Scientific Organizers

- Clive Tadhunter, University of Sheffield
- Dipanjan Mukherjee, IUCCA / University of Pune
- Raffaella Morganti, ASTRON Dwingeloo
- Cristina Ramos Almeida, IAC Tenerife
- Jonathon Pierce, University of Hertfordshire

Topics

- The Balance between Jet-Driven and Radiation-Driven Outflows
- Moderate-Luminosity Radio Sources: Power Sources and Populations
- Quantifying Jet-Driven Outflows and their Impact
- The Multiphase Character of Jet-Driven Outflows
- Future Prospects in Field
