General Structure and Programme Overview

The workshop will create a multidisciplinary environment where academic research meets practitioners. This will make it possible to create the space to achieve concrete social impact via the interaction with actual users and to improve research and scientific methodologies.

Schedule

Monday April 8th

10:15-10:30 Lorentz Center welcome and opening

10:30-12:00 Welcome by organizers, introduction of the workshop theme, round of individual introductions, informal chatting (to be continued over lunch)

12:00-13:30 Lunch
