

MONDAY	
Welcome & Introduction	
09:00-10:00	Arrival and coffee
10:00-10:10	Welcome by Lorentz Center
10:10-10:20	Welcome by Scientific Organizers - Review of major open questions and goals of the workshop
10:20-10:45	Short round of introductions for early career scientists
10:45-11:20	Coffee break
Interstellar Medium	
11:20-12:20	4x(10+5) min talks: M. Lee, R. Bowler, H. Algera, R. Fisher
12:20-13:50	Lunch
13:50-15:00	4x(10+5) min talks: L. Vallini, A. Pallottini, J. Li, I. de Looze
15:10 - 15:40	Coffee break
15:30 - 16:30	Small working group discussion - SG1
17:00 -	Welcome reception
TUESDAY	
Interstellar Medium	
09:00 - 10:15	5x(10+5) min talks: M. Bethermin, P. Cassata, A. Faisst, M. Dessauges-Zavadsky
10:15 - 10:20	5 min break
10:20 - 11:00	Plenary discussion I: How to connect the different cosmic eras from the very early phases of galaxy formation ($z>10$) to the galaxy assembly epoch ($z\sim 1-2$)
11:00 - 11:30	Coffee break
11:30 - 12:15	4x(10+5) min talks: G. Jones, R. Herrera-Camus, L. Tacconi, M. Aravena, D. Liu
12:30 - 14:00	Lunch
Kinematics, outflows, AGN, feedback	
14:00 - 15:15	5x(10+5) min talks: L. Lee, N. Foerster Schreiber, H. Übler, L. Rowland, P. Dayal
15:15 - 15:45	Coffee break
15:45 - 16:30	Small working group discussion - SG2
WEDNESDAY	
Kinematics, outflows, AGN, feedback	
09:00 - 10:15	4x(10+5) min talks: J. Birkin, R. Davies, J. Spilker, S. Carniani
10:15 - 10:20	5 min break
10:20- 11:00	Plenary discussion II: How to identify galaxies with stable rotating disks at high-z? How to improve the measurement of outflow properties in high-z galaxies?
11:00 - 11:30	Coffee break
11:30 - 12:45	5x(10+5) min talks: Y. Harikane, E. Nelson, I. de Looze (on behalf Mónica Relaño Pastor & Marco Palla), A. Yung, K. Heintz
12:45 - 14:30	Lunch
	Free afternoon
	Dinner
THURSDAY	
AGN, Morphology, Environment, Morphology	
09:00 - 10:15	5x(10+5) min talks: R. Maiolino, M Hirschmann, R. Bouwens, M. Stefanon, S. Schouws

10:15 - 10:20	5 min break
10:20 - 11:00	Plenary discussion III: How to bridge the gap between observations and simulations?
11:00 - 11:30	Coffee break
11:30 - 12:15	3x(10+5) min talks: J. Silverman, C. Gruppioni, L. Sommovigo
12:15 - 13:45	Lunch
13:45 - 15:00	5x(10+5) min talks: J. González-López, S. Fujimoto, J. Hodge, R. Smit, A. Ferrara
15:00 - 15:30	Coffee break
15:30 - 16:15	Small working group discussion - SG3
FRIDAY	
The future: New ALMA+JWST large programs, urgent proposals and legacy products for the community	
09:00 - 09:45	Presentation of new large observing programs from ALMA, JWST and other large observatories
10:15 - 10:20	5 min break
10:50 - 11:30	Plenary discussion IV: What are the valuable legacy products and databases we need to create that can benefit the broader scientific community?
11:30 - 11:00	Coffee break
11:00 - 12:00	Small group discussion - SG4
12:00 - 13:30	Lunch
13:30 - 14:30	3x20 min report on small group discussion
14:30 - 15:00	Workshop summary
