

Sustainable Computing with Neuromorphic and Quantum-Inspired Technologies

26 - 29 January 2026, Leiden, the Netherlands @omega

Scientific Organizers

- Rob van Nieuwpoort, LIACS, Leiden University
- Aida Todri-Sanial, Eindhoven University of Technology
- Chris Broekema, NWO-I ASTRON
- Julita Corbalan, Barcelona Supercomputing Center, Energy Aware Solutions
- Johan Mentink, Radboud University
- Sagar Dolas, Surf

This workshop is part of the CECAM-Lorentz collaboration, to stimulate innovative computational simulation and modeling.
